Today

## The Herbalife brand:

Getting stronger and stronger!

## The Circle of Success:

Build the long-term success of your business

## 2006: what a year!

Looking back at your Herbalife events

“Daniela Claudia Szasz is leading the way for Generation H!”

## Daniela Claudia Szasz, Germany

**Daniela Claudia Szasz headed to Germany as a refugee from Romania aged 17 years and struggled with money until she took advantage of the Herbalife business opportunity – she has not looked back since! Now she is a Presidents Team member and enjoys working as a successful young business woman. She is setting the precedent for Generation H Distributors around the world!**

When Daniela Claudia Szasz arrived in Germany she found life hard as she could not speak German but she managed to train as a social worker. As she was only earning a low wage, she supplemented her income with work ranging from cleaning to modelling. Despite her hard work, at the age of 23, Daniela was weighed down by debt.

“Something had to change,” starts Daniela, “When I heard about Herbalife through an advertisement, I felt that this business opportunity could help me out of my financial problems and perhaps even build up my own business.”

Daniela started working as a Distributor from home. Thanks to her hard work and motivation, after a year she was already earning 5.000 € per month. In her third year as a Generation H Herbalife Distributor she had achieved a monthly income of 10.000 €. By the age of 27, Daniela qualified for the President’s Team and her salary amounted to a considerable sum of 15.000-25.000 €!

“Today I am working internationally – I have created a wide Distribution network in Germany and other European countries. I enjoy working with other young people and sharing my knowledge with them. I can now afford things I could only ever dream of before; I have my own house, I drive my dream car and enjoy frequent trips around the world!”

Daniela is setting a great example to the rest of Generation H; ambition, motivation and a desire to work with other young people has really paid off for her.

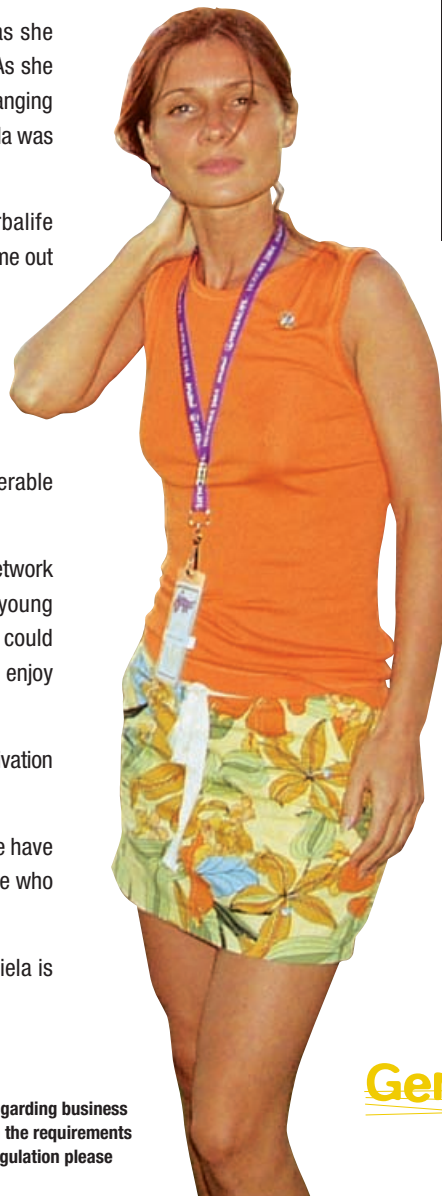

“I enjoy working for myself and I am very happy that young people like me have this unique chance. It is so much fun working with people of the same age who have similar interests.”

With her experience in helping young people achieve great results, Daniela is currently helping Generation H expand in the Asian market.\*

### Here's how

- Remain focused and motivated; success will not come overnight.
- Set yourself goals; once you've reached one goal – aim higher!
- Share your knowledge and experiences with other Generation H Distributors and attend as many events as possible so you learn from each other.

**Generation**
